Additional Equipment

- Joystick Control

Manufacturer Provided Description

MY 40... Call her now... MY5

With the **MY5**, Fountaine Pajot **Motor Yachts** pushes the limits of the possible even further, by striking the perfect balance between your demands for performance and comfort. A real prowess of our naval architect Daniel Andrieux and PierAngelo Andreani, our Italian designer, who have developed the perfect boat to meet your expectations of speed, low fuel consumption, space, stability and elegance.

Powered by engines of up to 2 x 324 kw and 2 x 440 hp, the **power catamaran MY5** is exclusively equipped with Volvo IPS propulsion systems, in 400 or 600 versions. The experience the IPS systems guarantee is vibration-free, therefore even quieter, with better handling and lower fuel consumption.

Thanks to the step along its stems, the MY5 can offer large volumes inside while maintaining high-performance hulls. And with its on-board technology, the MY5 provides **outstanding navigation** from both cockpits, with a low environmental impact and with uncompromising comfort and complete safety.

With a length of 13.69 metres, its living spaces are much larger than those of a monohull of the same size. Whether it be its hydraulic platform at the rear, its spacious front sunbathing area or its **magnificent 17 m2 relaxation area on the flybridge**, all the **Motor Yacht MY5's** outdoor spaces are dedicated to your well-being. The layout of the "L" shaped living spaces has been designed to meet your preference for a more welcoming and friendly setting.

The large bays of the saloon allow you to remain in tune with the outside, as does the panoramic view at the front of the saloon, which gives the impression that the horizon is within reach.

The light penetrates deep inside the boat, and a feeling of transparency permeates every moment on board. Serenity prevails in this luxurious and welcoming interior, divided between an Owner's suite and its Italian-style bathroom, two double guest cabins, one of which is available in a Twin version, and two bathrooms.

A dream at the very surface of the water.

Cockpit

- Area : 13.5m²
- 3-seater bench with backrest and storage compartment
- Stairs to the flying bridge
- Large storage compartment under floor
- Access to back beaches
