

INTRODUCING THE NEW **D50 COUPÉ**

The new D50 Coupé is a step forward in the 50ft range that brings together the best features of its brother, the D50 Open, such as the same habitability both outdoors and indoors. On one hand, it improves the experience onboard by incorporating a cabin superstructure, which offers more comfort and safety on deck, and protects the driving position from wind and water. On the other hand, this version offers shaded areas on deck with the possibility of folding a retractable awning on the roof to let in light and enjoy the good weather.
