YACHTS

D36 open

Innovation is in our DNA, as our philosophy is to keep improving and creating new models to suit every owner's demand.

That is why, at De Antonio Yachts, we have been working for months on a completely new design to offer you an even more complete and versatile boat from the 3x ft range, which brings together the best of the Open and Cruiser versions.

This new and improved version will have the same navigation and innovation features that we are already implementing in new models of our wide range. In short, a boat that we are sure will become the new benchmark in the industry.
