

640 FLY

The 640 FLY builds on the ground-breaking success of the 500 series to bring even more innovations to the flybridge luxury yacht segment. This transformer model will follow a new design path to allow for bigger volume and better space distribution, all while maintaining the great exterior appearance Galeon models are known for.

Outside, the aft cockpit dining area holds eight people who can enjoy an entertainment system with a flat screen TV sliding up from the kitchen top, all while protected from the elements by the electric aft sunshade. Fur-

ther back, find the hydraulic bath platform, capable of handling all water paraphernalia, and convenient access to a large skipper cabin.

The top deck is enlarged to offer a generous dining space, a full-sized bar and plenty of lounge space surrounding the steering console. The bow deck area can be approached by the revolutionary electric front window entrance revealing two separate movable sofas with integrated foldable tables for sun-deck purpose. Serve the area from a nearby wine bar to further impress your guests.

Everyone's favorite Beach Mode makes a welcome reappearance, fitted with six-meter-long balconies with partially glazed floors and a breakfast bar on both sides. Equip the cockpit area with a rotating sofa option with a 3,2m tender garage below to completely separate your yacht from the pack.

Inside, find extensive lounge and dinner areas with openable side windows next to the bar and steering station. Thanks to the innovatory, two-way stair system, a three full-beam cabin layout was made possible for extra privacy and comfort. A four-cabin layout is sure to please enlarged families and charter enthusiasts. Embrace the future of luxury yachts with the incredible Galeon 640 FLY!

The 640 FLY is a game changer, once again offering solutions never before seen in this class. This transformer yacht is revolutionizing the segment with its innovative approach to layout and space distribution
