## Description

The Saxdor 320 GTC drives like no other because of its refined, economic and performance-oriented hull design. A low center of gravity, low weight, sharp entry, and a twin stepped hull create a unique driving experience in all kinds of seas and weathers across the world.

This Saxdor 320 GTC comes with two twin Mercury V6 CMS 225HP engines - the Grand Tourismos of the seas. It changes the game of movement on board. With its unique concept of a full beam spacious wheelhouse with easy access to the walk-around bow, movement onboard has never been this easy. Saxdor believes in the luxury of unused space.

With a large and spacious wheelhouse people can easily walk through the wide corridor while you can prepare delicious servings and drinks for your family and friends at the same time. Silence is golden – the wheelhouse can be sound isolated with a floating floor, especially developed for the Saxdor 320 GTC model.

A great-sized wetbar is the heart of the cabin. A full-size wet bar, freshwater system, and a comfortable dining arrangement. This is where the magic happens.

Movement onboard has never been this easy thanks to a well-designed terrace and bow area. Enjoy it!

A sanitary corner with a toilet and an additional sink also fits in to make your mornings onboard hassle-free.
