Built in 2020 by Azimut Yachts, this Azimut 72 Flybridge is a contemporary and elegant motor yacht, offering four en-suite guest cabins—three doubles and one twin—and one of the largest flybridges in her class. Privately owned since new, fully optioned, and with low engine hours, she has been professionally crewed and meticulously maintained with no expense spared. The refined interior features desert oak and high-gloss mahogany complemented by steel accents, creating a sophisticated and modern atmosphere, making her an outstanding choice for those seeking both style and space.

Recent maintenance includes significant works completed in 2024, with six new 120Ah service batteries installed and the gangway fully serviced with new rams. Further works carried out in 2025 include full servicing of the main engines and intercoolers, inverters, and generators, along with servicing of the anchor winch, swim platform, and watermaker, as well as fresh antifouling and replacement of anodes, ensuring the yacht is maintained to a high technical standard.
